

To whom it may concern,
I would just like to state that I greatly enjoy the XM Satellite Radio that I pay for each month. The key word is "pay" here. I understand that the NAB is trying to limit or deny the broadcast of such things as weather and traffic broadcasts. Please do not allow this. I pay a premium to hear the quality and quantity of channels that XM offers. If the "free" radio stations want to compete fairly, let them improve their quality.

Thanks,
Kevin Westmoreland
